

# Workshop: High Performance liquid Chromatography (HPLC) as a Research Tool for Versatile Applications

Drug Research Center

## When?

**Saturday and Sunday:  
April 13th and 14th 2019 (8:30 am to 2:00 pm)**

## Who should attend?

**Researchers of any level working on different disciplines and interested in HPLC applications**

## What attendees will learn?

Attendees will gain theoretical and practical knowledge of HPLC:

- Understand basics of liquid chromatography.
- Understand how HPLC system works.
- Be familiar with the hardware and understand the software functions.
- How to extract different compounds from various biological fluids and quantify via HPLC.
- Be familiar with HPLC applications (analysis of pharmaceuticals and biogenic substances, stability studies, etc.).

## Instructor: Dr. Heba Salah Mousa

(Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, South Valley University)

## Registration:

للتسجيل يتم دفع قيمة الاشتراك في مركز بحوث الدواء

- Fees:

### Attendees from Assiut University:

- Faculty members (600 LE)
- MSc and PhD students (500 LE)

Attendees outside Assiut University: 700 LE

## Where?

**Drug Research Center  
Assiut University**

مركز بحوث الدواء  
بجامعة أسيوط أمام كلية  
طب الأسنان
